

SCHOOL CLOSING DECISIONS

Severe weather may result in school closing decisions. Please understand that the optimal time to make informed decisions to close school due to inclement weather is in the early morning. If severe weather is forecasted, we encourage parents to prepare your childcare options the night before so that you are prepared if a school closure occurs. School closing decisions will be made no later than 6:00am. Our children's and staff safety is our top priority! School closing information can be found on the Emergency Closing Center website at www.emergencyclosingcenter.com or you can sign up for email notifications of a school closing by visiting the Itasca School District 10 webpage at www.itasca.k12.il.us and clicking: District 10 Newsletter for news, events & **emergency closing information.**
